Lab 6 Mitosis

Identify the phase of mitosis:

- List what is happening in this phase only
- *Since there are 4 identifiable phases of mitotic division, Keep these in order as you present them in your report!
(YES, that means there will be 8 pages in this report)*

For this Lab only:

- ✚ Diagram and photo are on the **LEFT** page only!
- ✚ You need 5 labels **on the top drawing**
 - Make sure it is labeled appropriately
 - (rulers or straight edges)
 - **You also need a photo from your phone of the same phase of mitosis labeled at the bottom of the page at 400x**
- ✚ Diagram needs to be in color
 - **(Photo from your phone does not need to be in color)**
- ✚ Page numbers need to be in view
- ✚ Do not forget to place the title in your Table of Contents
