

Title

Lab 5

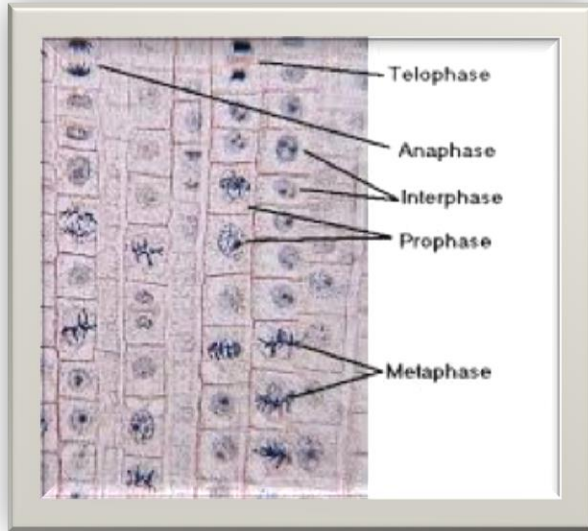

PHOTO OR DRAWING OF THE DIFFERENT STAGES OF MITOSIS

**MAKE SURE YOU INCLUDE:**

**LABELS**

Remember to include:

1. Margins
2. Page numbers

Title

Lab 5

**Null Hypothesis:**

**Alternate Hypothesis:**

**Observation:** Data Chart from our web site

**Analysis:** Construct a graph by you using the data from our class site

**Construct the graph in your lab book**

**(Remember to label)**

**Due not print a graph from a spread sheet program and tape it in**

**(I am looking at your graphing skills)**

- Carry out the Chi-square equation with our results.
- Compare your Chi-square result to the Critical Value (CV) – it would be a good idea to identify how you determined the CV

**Conclusion:**

Address the null hypothesis by “Rejecting” or “Failing to reject the null hypothesis”.
